Benefit More than just helpful information, this service prepares you for action by evaluating the overall health of your organization. As a result of this multifaceted process, leaders are able to test assumptions and make appropriate adjustments within their unique organizational context before making significant decisions about the direction and future organizational development. This process adds credibility to leaders who seek objective data.

Descriptions **Level 1: Basic Assessment** · Customized Survey · Demographic Report · Data tabulated and sent to you via U.S. Mail
